

+ TEMPERATURE SENSOR FOR PUSH-IN AND SCREW CONNECTION WITH M8 CONNECTOR 14°F TO 176°F

HIGHLIGHTS

- For measuring media in heating and cooling circuits of machines and systems
- For mounting in Eisele push-in and threaded fittings -> quick tool-free assembly and disassembly
- Safe and very compact electrical connection through M8 connector
- High protection class against the ingress of moisture, dust, and dirt
- Very high vibration resistance -> reliable and long-lasting operation.
- Very high process reliability through measurements at the relevant location

L-SCREW FITTING

Technical data

Execution	Temperature sensor
Measurement range	14°F to 176°F
Measurement medium	Water and aqueous liquids, non-aggressive gases
Immersion tube length	20 mm
Immersion tube diameter	4 mm
Process connection	EISELE push-in and screw connection in 8 mm
Nominal pressure	PN 16
Media temperature	14°F to 176°F
Ambient temperature	14°F to 176°F
Storage temperature	14°F to 176°F
Protection class EN 60629	IP65

Electrical data

Measuring element	1 x Pt1000 / 4-wire
Measuring insert	Non-replaceable
Accuracy	Class B / $\pm(0.30 K + 0.005 \times T)$
Electrical connection	M8 connector, 4-pole

Material

Media-related	
Process connection	Stainless steel 1.4571
Protective conduit	Stainless steel 1.4571

The temperature sensors can be integrated into our series!
