Eisele Connectors Inc.

99 Monroe Ave Nw • Suite 200 • Grand Rapids • Michigan 49503 • +1 616 726 77 14
info@eisele-connectors.com

- **1939 - Eisele Pneumatics GmbH & Co. KG was founded in Germany**
- **2014 - Subsidiary Eisele Connectors Inc. was founded**
- **Connectors for compressed air, gases, liquids, electrics and electronics**
- **Made in Germany with almost 100% production depth**
- **Products fulfill US requirements, e.g. conical and coated threads**
- **Readily available stock in Grand Rapids, Michigan**
- **Employees: 160 total (global)**
- **Further locations: Waiblingen, Germany and
Vienna, Austria**
- **Distribution partners in 20 additional countries worldwide**
- **Reference customers: Volkswagen Group, Krones AG,
Dürr Systems GmbH, Pentair Südmo GmbH
Uhlmann Pac-Systeme GmbH & Co. KG**

Director of Sales:
Mr. Michael Jones

Phone: 586-803-4083

Mail: michael.jones@eisele-connectors.com

What to expect: reliable components

- **Sustainable quality, flexibility and continuous improvement**
- **Over 30 patented solutions**
- **More than 8,000 standardized products**
- **2,000 customized solutions**
- **DIN EN ISO 14001 certified since 2014**
- **Highest tightness and safety**
- **Ruggedness and long life period**
- **Products suitable for vacuum conditions**
- **Easy mounting and disassembly**
- **Special connections for a broad range of applications**

Eisele connection components

Around 4000 connection components for pneumatics and vacuum

BASICLINE

Connectors for use in applications with high hygienic requirements

CLEANLINE

Flow optimised coolant connections

LIQUIDLINE

MULTILINE ADAPTIVE

Individually combinable multiple couplings with or without shut-off or drip-free

MULTILINE E

Multiple couplings for pneumatics, fluids and electronics

Connectors made of non-corrosive and acid-resistant stainless steel

INOXLINE

MULTILINE 1800 + 1811

Multiple couplings for compressed air with or without shut-off

MULTILINE
